

## GALA NON-WOVEN TEXTILE WALLCOVERING

With all its splendour, Gala welcomes us in a magnificent atmosphere, worthy of an evening at the opera, and reminds us of the universe of Fortuny, eclecticism mingling Venice to Byzantium.

Omexco composes this new non-woven collection around the leitmotiv of damasks, while two timeless plains, one matt and one metallic, complete the range.

Straight away, Gala enters the scene on an exuberant note with a large baroque damask in deep orange enhanced with gold leaf, continues with a small classic damask, carries us off with a damask design with ottoman accents and ends its journey with a contemporary textured and embossed damask.

Sumptuous atmospheres, soft or generous and warm, back and forth between shadows and light, contrasts and baroque accents, gold and silver lustre...

Gala seduces us by its shades of glacé chestnut; golden brown, burnt orange; amber yellow, pearl and silver grey; linen; ochre yellow; celadon green; pastel; violet etc.

The printed non-woven wallcoverings have a width of one metre and are sold cut length. Ecological, printed thanks to solar energy with water-based colours (no solvents), they also have a good light resistance and obtained a european B s1-d0 fire rating. Thanks to the marine certificate they can be used on cruise ships. The breathable aspect of the wallcoverings enables installation even in humid climates or environments. Easy to install and washable, the wallcoverings are suitable for contract use (hotels, restaurants, offices and so on...).

More information and samples are available on request.
